

# NORTH DAKOTA GAME AND FISH DEPARTMENT WILDLIFE MANAGEMENT AREAS

*Following is a list of state wildlife management areas. These areas are listed by county using the Standard County Code. Code numbers appear in parenthesis before the county. If unsure of the location of a county or the code number, refer to the map on page 28 which lists county code numbers.*

*The name, acreage, location, most common game species, and fishing if available is listed for each area. Unless otherwise specified, the areas are open to hunting, fishing and trapping. Check current hunting and fishing proclamations for details. Many areas also provide hunting or trapping for furbearers. Most WMAs are ideal for nature study, hiking, and primitive camping. Areas marked with an asterisk are leased to the Game and Fish Department by other agencies for management.*
